Septic Care, Odour Control &
Cleaning Product Catalogue

2019

EcoEthic Inc. has quality products that help protect our environment. Biodegradable, phosphate & chlorine free cleaning products; Leading edge eco-certified non-toxic septic & drain treatments; For Home, Cottage, Cabin and Country living. Proven ecological solutions for everyday living.

Septic Care & Odour Control

EcoEthic Septic System Treatment

Contains all the necessary and beneficial bacteria that digest waste in the septic tank, helping prevent harmful solids from entering the tile field. Ordinary household cleaners, soaps and chemicals can overload and damage our septic systems. EcoEthic Septic System Treatment is a complete blend of natural bacteria which digests organic waste.

- Eliminates Odours
- Reduces Solids Build-up
- Bacteriological Formula
- Helps Keep Tank & Tile Bed Clean
- Easy Monthly Treatments at less than \$6 per month
- Commercial Quality
- Recommended by Industry Professionals Since 2001

1.14kg (approx. 1 year supply) \$68.00

EcoEthic Bacteriological Holding Tank Treatment

Eliminates odours in your RV or Boat holding tank. For both black and grey water tanks. This concentrated formula liquefies waste for easy draining/pumping. It cleans level sensors with continued use, and removes build-up restoring tank capacity.

- Eliminates Odours!
- For Use In Both Black & Grey Water Tanks!
- No Need For Special Toilet Paper!
- Liquefies Waste For Easy Draining/Pumping.
- Cleans Tank-Level Sensors.
- Removes Build-Up...Restores Tank Capacity.
- Acceptable At All Dump Stations.
- Contains No Toxic Chemicals.
- Environmentally Beneficial.
- Economical...approximately 25 Treatments per container!

227g (approx. 25 tank treatments) \$25.00

EcoEthic BioSurge for Outhouses

Stinky Outhouse? Not anymore. EcoEthic BioSurge eliminates odours leaving you to enjoy your weekend. BioSurge for Outhouses provides effective odour control without the use of fragrance or harsh chemicals. A natural organic blend, that reduces odours in outhouses and pit toilets. Non-toxic & biodegradable formula contains odour eliminating microbes ideal for promoting bacteriological activity, eliminating odours and reducing solids. Concentrated formula.

1L \$20.00
3.78L \$60.00

Septic Effluent Filter

The ultimate in leach field (tile bed) protection. This effluent filter keeps your leach fields safe with twice the filtration area of most residential filters. The entire filter is in the effluent, making the filter 100% effective. The best feature is the sleeve as it remains in the outlet tee when the main filter is removed for servicing. This guarantees nothing larger than 1/16" reaches the leach field.

- Easy to install or retrofit; Fits inside any 4 inch sanitary tee.
- Allows only the clearest effluent to leave the tank.

Please be aware that noxious gases emitted by sewage can be dangerous. We recommend having a licensed waste-hauler or septic professional for safe and quick installation of the filter.

Specifications:

Flow Rate: 1,500 GPD. Two or more filters may be connected with a manifold for higher flow applications.

Filter Area: 132 linear feet

Filtration Size: 1/16"

Materials: All materials are noncorrosive in the septic tank environment. The Sleeve is made of PVC, primary filter is polypropylene and filter connection element is neoprene.

1 Filter complete with Sanitary "T" \$125.00

EcoEthicPRO Bioremediation Kit

EcoEthicPRO Bioremediation Kit is designed specifically for the recovery of fouled Tile Bed/Leach Fields. Each kit contains a microbial consortium, a microbial accelerator and oxygen release compound. The kit contents are mixed together and applied through the septic tank outlet baffle or d-box. The targeted strains of bacteria rapidly digest (metabolize) organic solids (biomat) in the leach field pipes and surrounding soil.

EcoEthicPRO Bioremediation kits are used by wastewater service professionals and recommended by many engineering firms for the effective restoration of tile/leach beds which have become overburdened by organic buildup.

EcoEthicPRO Bioremediation Kits are ideal for:

- slow or sluggish septic systems
- older septic systems
- heavily used and/or rented properties

Many, many septic systems have been recovered. Our clients include:

- property owners including cottages & residences,
- schools,
- campgrounds
- provincial parks,
- national parks,
- restaurants, resorts etc.

EcoEthicPRO Bioremediation Kit Contents:

EcoEthicPRO HC (4 x 3.78L) a microbial consortium of waste digesting bacteria
EcoEthicPRO MA (1 x 3.78L) microbial accelerator speeds removal of accumulated sludge
EcoEthicPRO OX (1 x 907g) a slow release oxygen compound
Each kit will treat 100m (300ft) of leach bed pipe.

EcoEthicPRO Bioremediation Kit\$485.00

Quality Environmental Cleaning Products

Manufactured in Canada. All products are free of phosphates, petroleum solvents, NTA, EDTA, caustics, dyes, perfumes, preservatives and any other ingredients that are considered environmentally threatening. All ingredients used in the manufacture of these products have been tested to ensure they biodegrade quickly in the environment, without harmful residues, by the rapid biodegradability method, OECD 310E. Unscented and Hypo-Allergenic. Safe & recommended for use in septic systems

All Purpose Cleaner

A little goes a very long way! A concentrated cleaner requiring up to 1/100 dilution, with water, prior to use. Terrific for cleaning large areas such as floors, walls or carpets. Free rinsing to give a spot-free surface. Terrific as a boat wash!

750ml	\$6.75
4L.....	\$22

Bathroom Spray Cleaner

Removes water spots leaving your fixtures shiny and clean! A ready-to-use spray bathroom cleaner that is ideal for cleaning baths, showers, bowls and fixtures. Non-abrasive for the removal of water stains, soap deposits and general grunge!
